OUR COMPANY

Established in 2000, Intact Pacific has solidified its position as a leading international provider of brushed and brushless motors and blowers, industrial vacuum pads and rubber components, as well as electronic, electrical solutions, primarily serving the Southeast Asian market. We offer a comprehensive range of products, including both standardized components from renowned global brands and custom-tailored solutions designed to meet the unique needs of our diverse customers.

At Intact Pacific Co., Ltd., we are dedicated to providing exceptional service and ensuring customer satisfaction. We prioritize quality, reliability, and convenience in every aspect of our business.

KEY VALUES:

- **Reliability:** Our products are designed to be durable and reliable, ensuring minimal downtime and maximum productivity.
- **Customer Focus:** Our customers are at the heart of everything we do. We strive to understand their unique needs and provide tailored solutions.
- **Responsive Customer Support:** Our dedicated customer support team is always ready to assist you with your inquiries and concerns.
- **Swift and Reliable Delivery:** We prioritize efficient logistics and timely delivery, ensuring your products arrive on time, every time.
- **Quality Assurance:** We are committed to delivering high-quality products and services that meet or exceed your expectations.
- **Reliable Warranty:** We stand behind the quality of our products. Our warranty program offers peace of mind and ensures your investment is protected.

By leveraging our expertise, unwavering commitment to quality, and customer-centric approach, we consistently strive to exceed your expectations.

PRODUCT CATAGORIES

Intact Pacific Co., Ltd. is a premier distributor of world-class products, serving the dynamic Southeast Asian market. With a comprehensive product portfolio and exceptional service, we are committed to delivering innovative solutions that meet the evolving needs of our customers.

We offer a diversified range of products to cater to your industrial needs, including:

BISON/AMETEK motors and blowers solutions

Intact Pacific is proud to be the exclusive distributor of BISON/AMETEK products in Thailand and Southeast Asia. BISON/AMETEK, a renowned global leader in power transmission and fluid handling solutions, is part of the AMETEK Inc. family of companies. While the BISON brand may be less familiar in Thailand, AMETEK is a well-established name synonymous with quality, innovation, and reliability. In 2023, AMETEK Dynamic Fluid Solutions (AMETEK DFS) merged with Bison Gear and Engineering Corp. to form BISON/AMETEK, expanding its product offerings and global reach.

Official Sole Distributor in Thailand and Southeast Asia for **BISON®** / **AMETEK®** Motors and Blowers

Bison®
Gearmotors

Lamb®
Vacuum Motors

Nautilair®
Combustion Blowers

Prestolite Motors
Brushed DC Motors

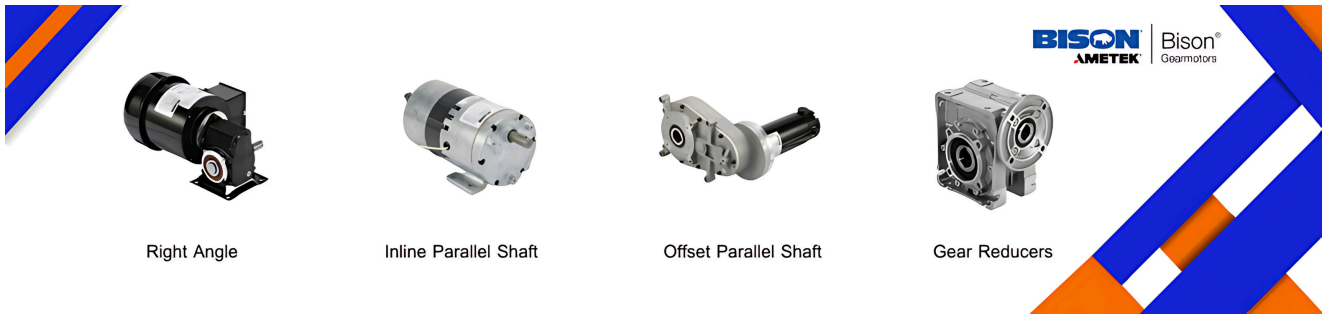

ROTRON®
Regenerative Blowers

Windjammer®
Brushless Blowers

As your trusted partner, we offer a comprehensive range of BISON/AMETEK products, backed by factory-direct support and prompt after-sales service. We are committed to providing you with the highest quality solutions and exceptional customer service.

BISON® GEARMOTOR

Bison® has been a driving force in countless industries for over six decades, providing reliable and efficient power transmission solutions. With a vast selection of over 1,000 standard products and the flexibility to customize solutions, Bison is a trusted partner in powering your operations.

1. **Gearmotors:** Bison® offers a comprehensive range of high-quality gearmotors designed to meet the diverse needs of various industries. With over 700 standard units across 23 configurations, we have the perfect gear motor for your specific application. Our experienced engineering team is also ready to design custom solutions tailored to your unique requirements.

2. **Motors:** Bison® motors are synonymous with high efficiency, reliability, and durability. These motors are engineered to excel in diverse industrial applications, from conveyor systems to agricultural equipment.

3. **Gear Reducers:** Bison® Gear Reducers provide efficient and reliable power transmission solutions for a wide range of industrial applications.

4. **Washdown Products:** Bison® offers a comprehensive range of IP69K-rated stainless steel washdown products, designed to withstand the harshest cleaning environments. Bison washdown products are engineered to deliver optimal performance and durability, even in the most demanding applications.

VACUUM BRUSHED MOTORS

Bison/AMETEK, a global leader in motor technology since 1915, offers a range of high-performance Lamb® vacuum brushed motors. These motors are renowned for their reliability, efficiency, and durability, making them ideal for a variety of commercial applications.

1.Lamb® Thru-Flow Motors: Designed for dry vacuum applications, Thru-Flow motors utilize the working air to cool the motor windings. This simple and efficient design makes them a popular choice for vacuum cleaners, air samplers, and other dry applications.

2.Lamb® Bypass-Tangential Blowers: Perfect for wet pickup applications like scrubbers and carpet extractors, Bypass-Tangential Blowers keep the working air and cooling air separate. This design prevents debris and moisture from damaging the motor windings.

3.Lamb® Bypass-Peripheral Motors: Versatile and powerful, Bypass-Peripheral Motors are ideal for industrial wet and dry vacuum cleaners, sprayers, foggers, and material handling systems. The separate cooling system ensures optimal performance and longevity.

4.Genuine Lamb® Carbon Brushes: To maintain the peak performance of your Lamb® vacuum motor, always use genuine Lamb® carbon brushes. These brushes are specifically designed to work seamlessly with Lamb® motors, ensuring optimal performance and extended lifespan.

BISON/AMETEK BRUSHLESS MOTORS AND BLOWERS

BISON/AMETEK offers a range of high-performance brushless motors and blowers, designed to deliver exceptional performance, minimal noise, and maximum efficiency. Our deep application knowledge and commitment to quality ensure tailored solutions for your specific needs.

1. Nautilair® Combustion Blowers:

- **Optimized Combustion:** Precise control over air/fuel mixtures for reduced emissions and increased efficiency.
- **Versatile Applications:** Ideal for boilers, furnaces, heaters, and industrial process heating.
- **Durable and Reliable:** Long-lasting performance with minimal maintenance.

2. Windjammer® Brushless Blowers:

- **Compact and Powerful:** High-performance, compact design for diverse applications.
- **Customizable Solutions:** Tailored to meet specific needs, from low-voltage to high-voltage configurations.
- **Reliable and Efficient:** Delivering exceptional airflow and pressure.

3. ROTRON® Regenerative Blowers:

- **High Performance and Reliability:** Oil-free design for long-lasting, maintenance-free operation.
- **Quiet and Efficient:** Low-noise operation and energy-efficient design.
- **Versatile Applications:** Suitable for a wide range of industrial, environmental, and chemical processing applications.

4. Prestolite Motors:

- **A Century of Innovation:** Proven performance and durability for diverse applications.
- **Customizable Solutions:** Tailored to meet specific needs, from small appliances to heavy-duty industrial equipment.
- **Global Manufacturing:** Consistent quality and reliability, backed by ISO 9001 certification.

PRECISION ENGINEERED VACUUM PADS AND RUBBER PRODUCTS

Intact Pacific is a leading provider of high-quality vacuum pads, suction cups, rubber tips, and other rubber products. Our solutions are designed to meet the demanding requirements of various industries, including semiconductor manufacturing, electronics assembly, and automotive production.

Our Expertise

- **Extensive Product Range:** Choose from over 400 standard models or customize solutions to fit your specific needs.
- **Material and Color Customization:** Tailor your vacuum pads to match your exact requirements.
- **Custom-Made Solutions:** Our engineering team can design and manufacture custom vacuum pads to meet unique specifications.
- **ESD Protection:** We specialize in ESD-safe vacuum pads, ensuring reliable performance in sensitive environments.
- **Material Expertise:** We select the optimal materials for your application, considering factors like temperature, hardness, and chemical resistance.

Best Value of Vacuum Pads

Built for precision handling in automated systems

- ◆ More than 400 models
- ◆ Made with premium materials
- ◆ Materials and colors can be adjusted

Quick and easy vacuum pad matching services

- ◆ Fast delivery
- ◆ Unbeatable prices
- ◆ Made to order

Ideal for various industrial automation applications

Electronics

Plastic, Medication and Cosmetic

Packaging

Semiconductor

KEY PRODUCT OFFERINGS

• Vacuum Pads:

- Flat vacuum pads
- Single bellows vacuum pads
- Double bellows vacuum pads
- Multiple bellows vacuum pads

• Hanmi Pick-Up Tips:

- High-quality pick-up tips for precise singulation in semiconductor manufacturing.
- Available in various sizes and colors to meet specific needs.
- Capable of handling delicate components with sub-millimeter precision.

• ESD Vacuum Pads:

- Consistent ESD resistivity of $10^5 - 10^9 \Omega$.
- Durable and reliable performance in sensitive electronic environments.

• ESD Mats and Tubes:

- Homogeneous molding for consistent ESD properties.
- Available in various materials and hardness levels to suit your application.

• ESD Trolley Bumper Guards:

- Protect equipment and personnel from electrostatic discharge.
- Durable and ESD-safe design.

• ESD Chuck Table Blocks:

- Provide a stable and ESD-safe platform for delicate components.
- Customized to meet specific requirements.

• ESD Plastic Pick-Up Tips:

- Available in various materials with different ESD levels.
- Ideal for handling sensitive electronic components.

With our commitment to quality, innovation, and customer satisfaction, Intact Pacific is your trusted partner for all your vacuum pad and rubber product needs.

OUTER SPRING TYPE CONTACT PROBE

SANKEI OUTER SPRING TYPE CONTACT PROBES:

Renowned for their innovative design and exceptional performance, Sankei probes are manufactured by Sankei Engineering, a leading Japanese company specializing in precision testing solutions. Intact Pacific, as the official distributor of Sankei Engineering, offers prompt consultation and specification comparison for Sankei contact probes. With a shortened lead time and a commitment to customer satisfaction, we ensure a seamless experience.

Key Features of Sankei Outer Spring Type Contact Probes:

- Unique Design: The spring is attached to the outside of the shaft, resulting in a single-body construction.
- Superior Performance: Handles high currents, high voltages, and extreme temperatures with ease.
- Long Lifespan: Designed for over 10 million contact cycles.
- Minimal Maintenance: Reliable operation reduces downtime and maintenance costs.

Applications:

Sankei Outer Spring Type Contact Probes are ideal for a variety of testing applications, including:

- High-Temperature Testing: Withstands extreme temperature fluctuations.
- Oil Mist Environments: Resistant to oil and other contaminants.
- High-Voltage Testing: Handles high voltage applications with precision.
- High-Current Testing: Capable of handling large current flows.

By choosing Sankei Outer Spring Type Contact Probes, you can ensure accurate and reliable testing results, even in the most demanding conditions.

PENTAIR SHURFLO DIAPHRAGM PUMPS

SHURflo diaphragm pumps are a popular choice for industrial applications, particularly in the cleaning industry. Their robust design and innovative features ensure consistent and reliable performance.

Key Features:

- **Self-Priming:** Capable of drawing fluid from up to 8 vertical feet (2.4 meters).
- **Chemical Resistance:** Durable materials withstand exposure to a variety of chemicals.
- **Heavy-Duty Performance:** Designed for demanding spraying and fluid transfer applications.
- **Dry Run Capability:** Can operate without liquid, preventing damage.
- **Built-in Check Valve:** Ensures efficient fluid flow and prevents backflow.

With these features, SHURflo diaphragm pumps provide a reliable and efficient solution for your industrial needs.

PAPER LEAD FRAMES: A COST-EFFECTIVE SOLUTION

Revolutionize your mold cleaning process with a cost-effective solution by using paper lead frames. It will help to optimize your mold cleaning process, reduce costs, and improve overall efficiency.

Our Services:

- **Customized Solutions:** We can tailor Paper Lead Frames to your specific needs.
- **Product Testing:** Request samples to evaluate performance firsthand.
- **Fast Turnaround:** Quick delivery to minimize downtime.
- **Expert Support:** Our team is ready to assist you with any questions or concerns.

COMPREHENSIVE INDUSTRIAL COMPONENT SOLUTIONS

Our product offerings extend beyond core components to encompass a wide range of industrial solutions. Leveraging our extensive global sourcing network, we can help you identify and procure the right products to meet your specific needs. From sourcing and purchasing to import and delivery, we streamline the process, ensuring a seamless and hassle-free experience.
